WHO WE REACH

EBRI supports thousands of professionals at more than 100 of the leading plan sponsors, providers, asset managers, unions, medical groups, insurers and consultants. We evaluate and benchmark programs designed to protect American workers and their families – the retirement, health and financial wellbeing benefits that secure the safety net protecting Americans.

Our members rely on our information, which can't be secured anywhere else. EBRI takes care to retain its well-earned credibility, avoiding hyperbole and partisanship.

As a result, our reach is large for an organization of our size. We reach more than 6,500 newsletter subscribers weekly. Last year more than 300,000 unique visitors looked for information on our website.
