The far-reaching implications of student loan debt

RISING STUDENT DEBT

Families with student loan debt have more than doubled over 25 years.

Families with student loan debt

By age of the head of family

IMPACTED ASSETS

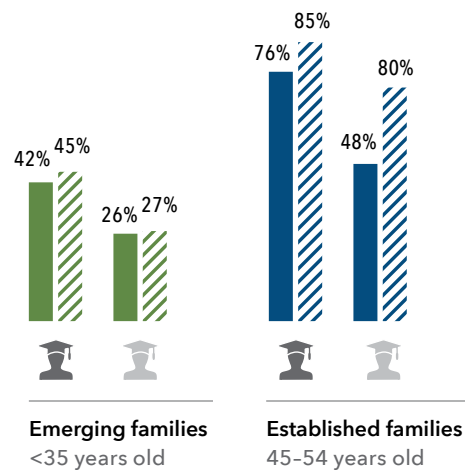

Families with student loans are less likely to own a home and have less saved for retirement.

Those with student loans who did not finish college end up with the costs but not the benefits of a degree.

Home ownership

By generation and education level

Average defined contribution balance

RETIREMENT RISK

Older families taking on student debt for their children, may be less able to save as they near retirement.

Median defined contribution balance

By student loan recipient
