Summer 2020 Policy Forum #87

If your organization is interested in sponsoring one of our events, contact us at memberships@ebri.org.

On the week of June 29th, EBRI will offer its traditional spring Policy Forum in a nontraditional format — via a series of webinars. While we would love to see you in person — and hope we will see you in healthier times in December — EBRI wants to deliver timely, valuable content in a manner that is safe for our community. We plan to offer compelling speakers addressing policy implications in a post-pandemic world. We’ll be discussing retirement, health, and financial wellness issues within the prism of the times.

Register now!

TODAY’S AGENDA

• How are plan sponsors, providers, and policymakers addressing the current emergency savings need?
• What approaches are plan sponsors adopting?
• What are we seeing in policy circles?
• How are providers refining their offerings?
Emergency Savings – What Share of Families Have Enough to Last Three Months

EBRI Policy Forum
July 2, 2020
Emergency Savings

• There has been a large amount of discussion about the self-reported ability to cover an unexpected $400 emergency expense, but that doesn’t really help with more extended periods of losses of income.

• Using the Federal Reserve’s Survey of Consumer Finances (SCF), actual reported liquid savings that families have can be determined.

• Liquid savings=checking accounts + savings accounts + money market funds + call accounts + prepaid accounts.

• Add CDs to liquid savings for a second measure of emergency funds.

• Compare liquid savings with three months of total family income (not expenses), and also compare them with 75% of income for a proxy of expenses.

• How many families surpass this threshold? By age of family head? By family income?
Percentage of Working Family Heads Who Have More Than Three Months of Income and 75% of Three Months of Income in Liquid Savings and Liquid Savings Plus CDs

Source: EBRI estimates of the 2016 Survey of Consumer Finances.
Percentage of Working Family Heads Who Have More Than Three Months of Income in Liquid Savings, by Age

Source: EBRI estimates of the 2016 Survey of Consumer Finances.
Percentage of Working Family Heads Who Have More Than Three Months of Income in Liquid Savings, by Family Income

Source: EBRI estimates of the 2016 Survey of Consumer Finances.
Takeaways

• The overwhelming majority of American families do not have liquid savings that surpass three months of their income—only 20.1% do, and only 25.7% have in excess of 75% of three months of income.

• These numbers are even worse for families with younger family heads and lower incomes, reaching as high as 90% not surpassing the three-months-of-income threshold.

• This was before the pandemic, and now the situation is even worse for many lower income families.

• The lack of emergency savings before the pandemic and now after has brought to the forefront the need for emergency savings, and financial wellness programs that help build up these savings have become widely discussed.
Financial Wellness in Times of Crisis

July 2, 2020

Suzanne Schmitt
VP, Financial Wellness, Prudential Financial
Financial precarity levels were high prior to COVID-19

Manage Day-to-Day Finances

• 49% have at least one immediate worry such as paying the rent/mortgage, meeting monthly minimum credit card charges and/or other recurring monthly bills (Gallup’s Annual Economy and Personal Finance Survey, 2019)
• 25% spend more than they make monthly (Prudential Financial Wellness Study, 2017)

Protect Against Risks

• 63% can’t come up with $500 in case of emergency (Prudential Financial Wellness Study, 2017)
• 29% of people say their level of debt is ruining their quality of life (Kantar Monitor Data, 2019)

Achieve Important Goals

• 76% have credit cards while 47% have retirement accounts (The Secret Financial Lives of Americans, 2018)
• The median 401k balance is $24,800 (Fidelity, 2019)
COVID-19 highlights the need for employer-based financial wellness

Financial health is workers’ biggest wellness concern
Workers are more concerned about their finances than they are about mental or physical health.

## Insight

During COVID, affected industries and populations are more financially stressed, more likely to be stressed by student loan debt and saving for retirement, less confident in their retirement savings, and less likely to save a good amount.

Financial Stressors calculated as a percentage of respondents within each population who are very stressed or somewhat stressed. Source: Prudential Retirement Enterprise Data Warehouse. Findings are aggregated from 49,544 unique completions of the Financial Wellness Assessment tool between 03/01/2018 – 04/30/2020, across all Full Service Defined Contribution Plans. All data is self-reported. Findings are not weighted. For institutional plan sponsor use only. Not to be distributed to plan participants or the general public.
## So how we help people find the money to fund emergency savings?

### Assess where you are
- Create a personal balance sheet – inventory what you own and owe individually and as a couple if applicable
- Get an objective sense of where you are by completing a financial wellness assessment
- Commit to working your next best steps

### Build a budget
- Capture housing costs, auto and transportation costs and utilities
- Include personal debt such as student loans, medical bills and credit cards
- Don’t forget things like memberships and quarterly expenses like recycling and property tax
- Come clean with yourself and your partner about debt...
- Have an honest conversation about what’s truly essential if there’s no money left to fund emergencies...

### Automate emergency savings
- Check into employer-sponsored emergency benefits options
- Consider opening a money market account and automating payments

### Redefine “emergency”
Experts including Rachel Cruz recommend pressure testing whether a situation is really an emergency by answering the following questions:
- Is it unexpected?
- Is it necessary?
- Is it urgent?

### Protect against fraud and identify theft
- Use unique, strong passwords
- Set up two-factor authentication if your institution allows
- Don’t respond to unsolicited requests for personal information
In-plan emergency savings feature

Unexpected events require quick access to money
Events like car repairs, expensive home repairs or medical emergencies.

In-Plan Emergency Savings Feature
By introducing an after-tax, payroll-contributed option, participants will have access to the money they need to help them address whatever life throws their way.

Dual-purpose savings vehicle
Long-term retirement savings.
Access to cash in case of an emergency.

2 3 All investing involves various risks, including the possible loss of principal. It is possible to lose money by investing in securities.
The products and services described in this document are voluntary products and services that are offered on an individual basis. They are not part of any employee benefit plan, or any program sponsored or endorsed by an employer.

This material is intended to provide information only. This material is not intended as advice or recommendation about investing or managing your retirement savings. By sharing this information, Prudential Retirement® is not acting as your fiduciary as defined by the department of labor or otherwise. If you need investment advice, please consult with a qualified professional.

Contributions may be subject to certain limits and distribution rules may vary by plans. See Plan Highlights for information.

Amounts withdrawn before age 59½ may be subject to a 10% federal income tax penalty, applicable taxes and plan restrictions. Withdrawals are taxed at ordinary income taxes rates. Penalty does not apply to 457(b) plans.

After-tax contributions withdrawn are generally tax free. If you need to withdraw money from the after tax account, it will include a pro rata share of the earnings from investments. Investment earnings are taxable as income upon distribution, and a 10% early withdrawal penalty on earnings may apply. The early withdrawal penalty will need to be addressed when filing your next tax return. You should consult tax advice when considering taking any withdrawals from retirement accounts. Keep in mind that Prudential does not give tax advice.

Neither Prudential Financial nor any of its representatives are tax or legal advisors and encourages you to consult your individual legal or tax or legal advisor with any specific questions.

Retirement products and services are provided by Prudential Retirement Insurance and Annuity Company (PRIAC), Hartford, CT, or its affiliates. PRIAC is a Prudential Financial company.

Financial Wellness offerings, including access to any third-party referrals, are provided by Prudential Workplace Solutions Group Services, LLC (“PWSGS”). PWSGS is an affiliate of Prudential Financial, Inc. PWSGS is not a licensed insurance company, does not provide insurance products or services, and does not provide financial, investment or tax advice. The Financial Wellness offerings are made available solely for general financial education purposes. Individuals should consult appropriate professionals when making financial, investment and tax decisions.

Financial Wellness offerings, including any products, services or other solutions, described in this document are voluntary, individually-selected offerings. They are not part of any employee benefit plan, or any program sponsored or endorsed by an employer.

MISSION
Leidos makes the world safer, healthier, and more efficient through information technology, engineering, and science.

VISION
Become the global leader in the integration and application of information technology, engineering, and science to solve our customers’ most demanding challenges.

We will deliver innovative solutions through the efforts of our diverse and talented people who are dedicated to our customers’ success. We will empower our teams, contribute to our communities, and operate sustainably.

VALUES
- Integrity
- Innovation
- Agility
- Collaboration
- Commitment

Financial Wellness: A Corporate Perspective
July 2, 2020
Leidos’ Retirement Plan was recognized as one of four finalists for the 2019 PlanSponsor of the Year. The nomination was based on our 2018 design, which was recognized as a ‘destination plan’. Destination plans are designed and communicated in a way that helps participants recognize the value of the Plan both while actively employed and throughout retirement.

Leidos remains committed to maintaining this favorable status and improving its education and communication tactics.

Numerous studies indicate that the number one financial challenge employees face is managing credit card and other debt (including student loans). Other top financial challenges are: adequate retirement savings, paying for children’s educational expenses, and covering basic living expenses. Employers need to care because the numbers show that these factors are impacting productivity in the form of stress, inability to focus at work, physical health concerns and absenteeism.

In June 2018, Leidos undertook a conjoint benefits survey that among other things highlighted concerns when considering the need for financial assistance. Responses came from 11,700 employees, or nearly 60% of our U.S. workforce.
Financial Concerns…

- We asked our employees pointed questions relative to financial wellness. We learned:
  - Employees described their current financial situation as stressful and were not confident in preparing financially for retirement
    - ~55% agreed, between ages 20-55
    - ~45% agreed, for ages 55+
  - Regardless of title, location and salaries,
    - 31% of our population indicated that it would be difficult to address a $500 unforeseen expense
    - 17% indicated that they would need to rely on credit cards to pay their bills over the next 6 months
  - Employees indicated that Leidos could do more to help them prepare financially
    - ~40% of all employees agreed
  - 71% of respondents said they would participate in a financial wellness program should Leidos offer it.
We have embraced Prudential's suite of financial wellness tools and services. Prudential brings in certified financial experts to locations throughout the U.S. to host the multi-week Pathways financial wellness series, specialized onsite meetings and more recently shifting to on-line offerings. In addition, Prudential provides student loan debt solutions and education through Vault. Metrics reflect high engagement and continued requests for more focused presentations.

Following a highly successful pilot program in mid-2019, we rolled out financial coaching services to all of our employees through SmartPath beginning late 2019. SmartPath provides both on-site and webinar courses along with one-on-one coaching with certified financial specialists and numerous web-based tools and resources. Metrics reflect high engagement and positive trends on stress reducing measures.

Leidos also provides employees with access to Purchasing Power through our voluntary benefits offerings. While not a discount program, Purchasing Power provides an option for people to acquire what they want and repay responsibly through payroll deductions over 6 or 12 months (eliminating further credit card debt).
Leidos Responds…

- All our financial wellness vendors, including our recordkeeper, Vanguard, and our HSA provider, HealthEquity, work together to provide holistic messaging to direct employees to the right resource to help them with their specific needs, in some cases providing joint webinar sessions.

- New this year, Leidos is a proud early adopter of Vanguard’s proprietary advice offerings and we are excited to bring together cohesive, investment advice to our employees, both active and former.

- To further help our employees, we’ve developed an engaging and detailed financial wellness site…
Leidos Responds…
Emergency Savings
- We match both pre-tax and Roth employee contributions. We also permit employees to defer traditional after-tax contributions, which is not matched.
- Through multiple channels both internally and through our partners, employees are educated about the ultimate cost to them about hardship withdrawals and loans and the benefits of budgeting, seeking advice and expert assistance.
- In 2018, we launched a campaign geared towards saving for a rainy day. If employees aren’t using their bank or credit union, then we suggest they put a little away into the after-tax deferral bucket that can be used in case of emergencies.
- Today just under 5% of our employees are deferring into the after-tax bucket, holding an average balance of $8,600, with only 137 participants taking a withdrawal from that source in 2 years.

Emergency Relief
- Through the Leidos Relief Foundation, grants can be provided with demonstrated financial need in times of hardship or emergency
Recent Regulatory Relief

- Leidos considered the various aspects of the CARES Act and ultimately concluded that the best thing we could do for employees was provide them with the means to access their accounts to address their needs. We adopted all of the CARES Act provisions.
- We also adopted IRS Notice 20-23 that extended loan suspension without regard of being an affected individual as defined under the CARES Act.
- To date, while 186 participants have taken a CARES Relief Distribution, only 19 have had the need to take the full $100,000 withdrawal and 17 participants have taken advantage of a loan over $50,000.
- 32 active participants and 19 former employees have elected loan suspension.
What’s Next…
In addition to certified financial coaches providing 1:1 services, SmartPath also offers:
- Live and Onsite Sessions
- Over 30 courses on financial matters
- Allows for recording for future playback

To address COVID-19, SmartPath put together a comprehensive Help Center and have produced multiple webinars geared towards everything from investing to stress to coming up with your next move… all free to anyone who goes to their site:

Our Future
The key pillars that guide our work to strengthen American retirement security

**Make saving easier for all ages**

Americans need increased access to and participation in workplace retirement savings plans. Policymakers should remove barriers to retirement security, helping people accumulate and preserve assets during their working years.

**Transform nest eggs into a lifetime of income**

Longer life expectancies and the erosion of traditional pensions have stretched savings. Americans need more straightforward ways to make their savings last and turn them into a lifetime of income. Americans cannot and should not be left to figure out this confusing system on their own.

**Save Social Security**

We have known for decades that the Social Security system is on a trajectory for financial crisis, but for years on end policymakers have failed to address the problem. We need to save our Social Security system with reasonable reforms, for the sake of today’s seniors and for generations to come.
